

Discover Your Child's Operating System
A Better Way to Homeschool A Child With ADHD

Would your own homeschooling a child with ADHD be better, maybe even easier, if you thought of your child's brain as his own _____, fearfully and wonderfully made by God, _____ system?

L = _____ J = _____

Parts of the Operating System

PART	COMPUTER	CHILD
Overall	Program or app	
Input Device		
Output	Display screen	
Storage device	Files & Directories	
Peripheral device	Printer	
Control System		

Stages of Software Development *AND* Homeschool Planning

1. Requirement Gathering

Researchers in 2014 reported in the journal [Research in Developmental Disabilities](#) that out of 45 studies done more than half of children with ADHD have problems with gross and fine motor skills.
